

Quality Policy

PUREDRIVE ENERGY LTD is committed to continually improving quality whilst consistently meeting our customers' requirements in the design, development, building and distribution of energy storage solutions.

In order to achieve compliance with these commitments PUREDRIVE ENERGY LTD implements and maintains a Quality Management System (QMS), which processes constitute an integral part of the company's business strategy and are designed to meet the requirements of EN ISO 9001:2015.

This will be achieved through:

- Considering the context of the organization and aligning the Quality Management System with its strategic direction.
- Identifying, evaluating and addressing the risks and opportunities associated to the business activities.
- Satisfying customer expectations and applicable legal & contractual requirements.
- Assessing potential impacts of climate change on our operations, processes and procedures to contribute to global sustainability efforts.
- Management of organization, along with employee-established quality objectives and defined responsibilities and authorities for their fulfillment.
- Establishing, applying, maintaining and continual improvement of effectiveness of the Quality Management System.
- Continual enhancement of customers' satisfaction through our high-quality products and supportive customer service department.
- Defining the necessary competences for every job within the company supported by the appropriate training.
- Tracking and applying the latest technologies to our processes including software development.
- Selecting suppliers carefully following high standard criteria with supporting audits
- Commitment to increase quality of our products in order to exceed customers' expectations.
- Making continuous improvement a part of our daily operation.
- Ensuring that our Policy and Procedure Manuals reflect what we do.
- Continuously upgrading the Quality Management System in all departments. Maintaining the quality of both products and services through our international expansion in target countries.

The framework for setting quality objectives is defined in the Quality Manual.

CEO is responsible for communicating the Quality Policy to all persons working for or on behalf of the organization and making it available to the public.
